

Unit 3 Activity Two

Potential Activity Scenarios

1. A female resident is brought to the detention center for booking. She is out of control and assaults two intake staff and tries to attack another female resident. She is being booked for assault but the officer notifies you that she had earlier been sexual assaulted by four men just a few days prior.
2. A resident reports that his roommate disclosed a sexual assault that occurred at a previous facility placement. The victim has been in trouble a number of times for various pranks and has often lied about many things, but has never mentioned sexual abuse. It is later confirmed that the abuse happened and was perpetrated by a roommate at the former facility.
3. A young man who is committed for vehicular homicide was the driver of a car going 100 miles an hour when it struck a tree killing three passengers and leaving the driver with significant cognitive impairment. The resident is severely disruptive and often requires constant staff attention and redirection due to his consistently inappropriate behavior.
