The goal of this training is to teach Juvenile Counselors or Probation Officers how to apply the principles of effective intervention to community supervision practices. The training teaches officers how to use the EPICS model to target higher risk youths and their criminogenic needs using cognitive behavioral interventions and core correctional practices. Examples of cognitive-behavioral interventions include structured skill building and cognitive restructuring. Example of core correctional practices include relationship skills, teaching skills, problem-solving, and effective reinforcement and disapproval.

Course Content:

- Learn, understand, and be able to apply the principles of effective intervention
- Learn and be able to implement the EPICS model
- Learn and understand cognitive behavioral interventions
- Learn and understand key core correctional practices and how to implement specific cognitive behavioral intervention tools - Relationship skills, Structured skill building, Effective reinforcement, Disapproval and Use of Authority, Problem-solving, Cognitive Restructuring
- Learn how to improve work with families
